

AV GAUGE & FIXTURE

Environmental Policy Statement

AV Gauge & Fixture is committed to continual improvement and prevention of pollution within our organization to ensure that our manufacturing processes are sustainable with a minimal impact on the environment, our employees, visitors, suppliers and customers.

We will provide and maintain acceptable industry practices and ensure that we are in compliance with all legislative requirements. We will exercise sustainable resource management through waste reduction, materials re-use and re-cycling.

We will strive to maintain energy efficiency to minimize carbon footprint, and where feasible, exercise alternative sources for renewable energy.

Management and employees are responsible to act in compliance with legislation and with the company's environmental policy and procedures. All employees are responsible for familiarizing themselves with the policy and procedures.
